

Electrocardiograma

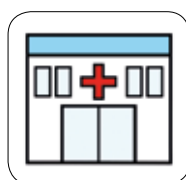

9

Me despierto, desayuno, me cepillo los dientes y me visto

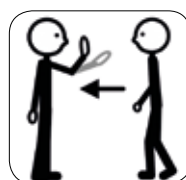

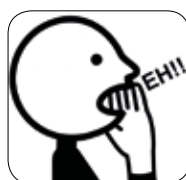

Voy al centro de salud

Entro al centro de salud

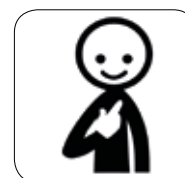

Espero en la sala de espera

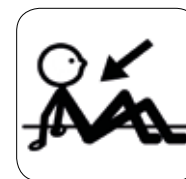

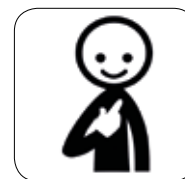

El/la profesional me llama

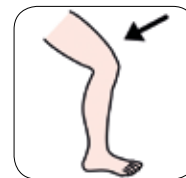

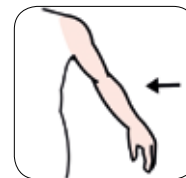

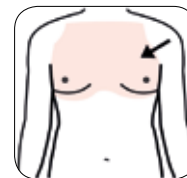

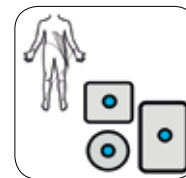

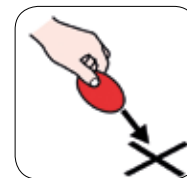

Entro en la consulta

Yo me tengo que quitar la ropa de arriba

Yo me tumbo en la camilla

El/la profesional me coloca los electrodos de la máquina sobre mi pecho, brazos y piernas

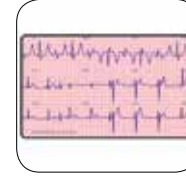

Tengo que estar quieto y en silencio

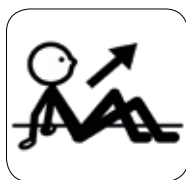

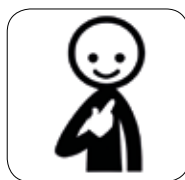

No me va a doler nada

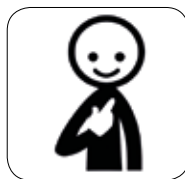

El/la profesional mete todos los datos en el ordenador

La máquina da los resultados al momento

Yo me levanto de la camilla

Yo me pongo la ropa

Salgo de la consulta
